PT GLOBAL DATAVERSE INDONESIA

ERPNext System

Live Demo & Capabilities

Open-source ERP that grows with your business.
fully integrated, cloud-ready, and built for your team.

Today's Agenda

01
What is ERPNext?

An overview of the platform and its open-source advantage

02
Core Modules

Accounting, Inventory, Purchasing, HR, CRM, and more

03
Live System Demo

Walk-through of key workflows in a real ERPNext environment

04
Why ERPNext for You?

How it fits your operations and grows with your team

05
Implementation Approach

GDI's proven methodology from setup to go-live

06
Next Steps

Timeline, investment, and how to get started

What is ERPNext?

A fully integrated, open-source ERP platform trusted by businesses in 150+ countries.

- Built on the Frappe framework
- Covers Finance, Supply Chain, HR, Manufacturing, CRM, and more in one system
- Cloud-based or on-premise
- Low total cost of ownership compared to others
- Active global community + enterprise support available

150+

Countries

5,000+

Companies

100%

Open Source

1 Platform

All Departments

Why ERPNext?

Criteria	ERPNext	SAP / Oracle	Spreadsheets
Licensing Cost	**Free (open-source)**	High — per-user fees	Free but unscalable
Implementation Time	**8–16 weeks**	6–24 months	None (manual)
Integration	**Built-in, API-first**	Complex & costly	None
Real-time Reporting	**Yes (dashboards)**	Yes (add-on cost)	Manual / delayed
Mobile Access	**Fully web-native**	App required	Limited
Customization	**Low-code / open**	Costly proprietary	Very limited

GDI's Implementation Approach

Phase 1	Phase 2	Phase 3	Phase 4
Discovery & Blueprint	**Configuration & Setup**	**Training & UAT**	**Go-Live & Support**
• Requirements workshop • Process mapping • Gap analysis • Project charter	• Module config • Chart of accounts • Master data • Integrations	• User training • Test scenarios • Bug fixing • Sign-off	• Cutover plan • Data migration • Hypercare • Handover docs

Investment & Timeline

What's Included

- ERPNext license (open-source)
- Server setup & cloud hosting configuration
- Module configuration (up to 5 modules)
- Master data migration & import templates
- User training
- Documentation & admin handover
- 3-month hypercare support post-launch

Indicative Timeline

Week 1 - 3	Kickoff & Discovery
Week 3 - 6	System Build & Config
Week 6 - 8	Training & Testing
Week 9 - 10	UAT & Sign-off
Week 11–12	Go-Live & Cutover
Month 4–6	Hypercare & Optimization

NEXT STEPS

Ready to move forward?

01 Share your business processes & pain points with our team

02 We run a scoping session (free) to size the right package

03 Receive a detailed proposal & project timeline within 5 days

04 Kick off your ERPNext implementation journey with GDI
